## Ground-Up Construction Superintendent

### Description

An industrial company based in Houston, TX specializing in turnkey metal building construction and steel fabrication. They manage projects comprehensively, from permitting and concrete foundations to engineering and erection services, delivering high-quality commercial steel buildings, metal homes, and storage facilities.

To support their expanding operations, they are seeking an experienced Ground-Up Construction Superintendent.

### Responsibilities

We are seeking an experienced Ground-Up Construction Superintendent to oversee all phases of steel building construction projects from inception to completion. The ideal candidate will ensure projects are completed safely, on time, within budget, and to the highest quality standards. This role requires strong leadership, effective communication, and comprehensive knowledge of construction processes.

### Qualifications

Qualifications:

- Minimum of 5 years of experience as a Construction Superintendent, with a focus on ground-up projects.
- Extensive knowledge of steel building construction methods and prefabricated metal structures.
- Proven track record of managing construction projects from start to finish.
- Strong understanding of construction scheduling, budgeting, and cost control.
- Excellent leadership and interpersonal skills, with the ability to motivate teams and manage conflicts.
- Proficiency in reading and interpreting blueprints, specifications, and construction documents.
- Familiarity with construction management software and tools.

### Employment Type

Full-time
